19th April 2004

Dear Graham,

Now that the rewiring project for Chelsea Old Church has been completed, we wish to thank you and your team very much for doing such a splendid job. We were particularly pleased with your ability to adjust to the “personality” of the church and cope with all the changes and problems that inevitably arise with a huge project such as this, and for providing such a courteous team.

We wish you all the best in your future projects.

Yours sincerely,
Linda de May, Churchwarden
