Dear Graham

**New internal lighting scheme**

Following the completion of the internal phase of our lighting works, I wanted to write to express my own personal thanks, as well as those from Nigel, the PCC and our congregation.

The lights are quite fantastic, and have made such a great difference to our church and the way we can now use it. Our usual services have been enhanced by the new lighting, and we have two concerts scheduled for this year, which we can now light in a professional way ourselves.

Stuart and Richard, and you, Graham, were such a pleasure to work with. I appreciate the way in which you all worked with me personally, and planned the works to fit in with the life of the church as much as possible. I also appreciate the professional way in which you all worked.

I hope that the planning permission for the external floodlighting work is soon approved, and look forward to welcoming you back to St Denys for this final phase.

Take care.

Yours sincerely

  
Churchwarden
